PREFACE

This volume, the twenty-eighth annual, is a cumulation of the issues of the Industrial Arts Index published from December, 1939, thru November, 1940. The indexing of a few additional periodicals is included. American Association of Petroleum Geologists Bulletin, Comparative Law Series (discontinued in September), Instruments, Journal of Applied Physics, Product Engineering have all been indexed beginning with their January, 1940, numbers. Journal of the Aeronautical Sciences has been indexed beginning with volume 7, November, 1939; Paper Industry, with volume 22, April, 1940; RCA Review, with volume 5, July, 1940. Commerce Reports was discontinued last September and Foreign Commerce Weekly which took its place, October 5, is considerably larger in size and scope, replacing also Comparative Law Series and other services.

Because of the war the indexing of certain foreign periodicals is far from complete. The French and German magazines for some months, beginning with June, did not reach this country and were somewhat irregular even earlier in the year. Such of the German magazines as have since arrived were too late for indexing in this volume. It is hoped to complete the file of these periodicals and index them in the current 1941 issues of the Industrial Arts. One English periodical is also lacking; the last number of Light & Lighting to be received is March, 1940. Four periodicals will be dropped from the indexed list beginning with January, 1941. These are: Cornell Engineer; Nation's Business (indexed in Readers' Guide); Société des Ingénieurs Civils de France, Mémoires; Chemische Fabrik.

The following periodicals will be indexed beginning with 1941 or with the beginning of their next volume: Acoustical Society of America, Journal; Ceramic Industry; Diesel Power and Diesel Transportation; Industrial Marketing; Industrial Medicine; Journal of Chemical Physics; Journal of Retailing; Machine Design; Modern Packaging; Paint, Oil and Chemical Review; Petroleum Engineer; Photo Technique; Soap and Sanitary Chemicals; Society of Motion Picture Engineers, Journal; Technology Review; Welding Journal.

In addition to the indexing of the listed periodicals, this volume contains subject entries for numerous bulletins, reports, and pamphlets on topics which the indexed periodicals cover. It contains also subject entries for 2464 books which have been listed first in the monthly Index, in the section "Some Recent Book Titles" before becoming a part of the main alphabet.

Miss Ruth Berkowitz has recently joined the staff and has taken over the indexing of the insurance magazines.
